and resilience at work.

Enabling sustainable performance through technology,  
coaching, and science.

01

# PROBLEM & SOLUTION

# Every Day Challenges & Caelum Services

## Major Challenges in current work-life Balance

01

Rising workplace stress, burnout, and mental fatigue.

02

Declining employee motivation, focus, and well-being.

03

Low engagement and limited impact of traditional performance programs.

04

Reduced productivity and increased turnover for organizations

## We offer a Performance Platform that combines

01

Real-time monitoring and personalized guidance for sustainable energy and focus.

02

Expert coaching and team development.

03

Gamified tools for lasting motivation.

04

Nutritious meal and personalised exercise plans

# BUSINESS MODEL

02

## Target Segments

- Medium to large companies
- Knowledge-intensive industries
- Performance-driven culture

## Industries

- Technology & SaaS
- Finance & Insurance
- Consulting & Professional Services
- Innovation-led corporate services

## Personas

### Decision Makers [B2B]

- HR & People leaders
- Leadership teams

### End Users

- Urban professionals [25–45]
- Highly educated
- Time-poor, high responsibility

## Employee Mindset

- Want flexibility, need structure
- Care about health and wellbeing
- Struggle with consistency

## Competitive Landscape

- Generic wellness platforms
- Fragmented solutions
- Low long-term engagement

## Differentiation

- Designed for everyday work routines
- Focused on consistency, not intensity
- Integrated approach: nutrition, movement, mental clarity
- Built for long-term engagement

# Value Proposition

## **For organizations**

- Sustained performance
- Reduced burnout
- Measurable outcomes

## **For employees**

- Energy & focus
- Structure without pressure
- Sustainable habits

03

# SMART ONLINE MARKETING OBJECTIVES & MEDIA

---

Winning the Oslo  
Market:  
From First Impression  
to Signed Contract

---

## Phase 1: Building Awareness & Brand Authority

**The Goal:** Reach the leadership teams of 200 targeted, performance-driven companies in the Oslo market.

**The Approach:** Focus on high-intent LinkedIn engagement to establish Caelum as a professional partner.

**Why it matters:** In premium B2B, we need a solid reputation before we can ask for a demo or a contract.

## Phase 2: Establishing Search Authority

**The Goal:** Secure a Top-5 Google ranking for the term "Employee Performance Oslo".

**The Approach:** Use educational content to answer the specific needs of managers looking for sustainable performance.

**Why it matters:** This allows us to reach people who are actively looking for a solution, reducing our reliance on broad advertising.

## Phase 3: Moving to Signed Contracts

**The Goal:** Achieve a 2% conversion rate for "Book a Demo" requests.

**The Approach:** Using science-backed white papers and guides to move interested leads into a formal partnership.

**The Result:** We move from a first impression to a measurable business outcome: a signed enterprise contract.

---

# Our Revenue Generation Strategy

---

01

## Subscription Model
